projects and operations through team building and synergized use of human and material resources. Aspiring to use core military values in the corporate world.

PROFESSIONAL EXPERIENCE

30 responses

Project Management. Successfully Implemented the Navy's Integrated Clothing Management System (ICMS) by leading a team right from formulating the business process rules, development of the software modules, implementation and training of personnel pan Navy. The ICMS manages the entire clothing requirement of approx. 65000 personnel by carrying out a review of demands, procurement and distribution to the personnel as per their entitlements. The ICMS has resulted in accurate forecast, efficient inventory management and ensures timely disbursement of items and their online accounting over 51 clothing centres pan Navy.

Material management. More than seven years Procurement expertise (Domestic and foreign) in two biggest central procurement Depots of Indian Navy. Ensured all activities from coordination of demands, tendering, price negotiations, placement of orders and Post Contract Management using the Integrated Logistics Management System (ILMS) - the Navy's MIS for stores and depot management (SAP based application). The average Revenue Budget handled towards procurement was approx. 250 crores per annum. On an average Quarterly placed approx 200 orders.

At Eastern Naval Command was instrumental in implementing and training workshops

- Implementation and conduct of training work shop of the e-ticketing Software (Defence Travel System) at command level in coordination with the Controller General of Defence Accounts & Audits. The module provides a central platform to meet the ticketing (Rail & Air) requirements of the Indian Navy Personnel, dispensing the requirement of booking Rail & Air tickets through the Railways and Air Portal.

- Replaced the manual financial payment with online Payment. All sundry payments made to the personnel are online as against the earlier manual system, using corporate banking features. This facilitated maintaining transactions on e-ledger of a monthly cash assignment of more than 100 Crores

- Vendor Conclave in association with CII, Visakhapatnam chapter to increase our vendor base with an aim to promote "Make in India". In addition, the aim of this meet was to enhance awareness of vendors on procurement procedures, indigenisation, inspection modalities and avenues for new vendors in supply of spares and stores to Navy. The meet was also aimed to encourage young entrepreneurs, MSMEs and startups to participate in indigenized manufacturing and development of products and work towards reducing imports to achieve self-reliance under the aegis of Make in India programme. The Conclave was attended by various DPSUs and firms and approx 130 vendors participated

Human Resource Management. As a junior and mid-level Divisional Officer, I have led service and civilian personnel and have been responsible for their training, advancements and all service as well as personal requirements including counselling.

Accomplishments- Other than core work

Award. Pan Indian Navy secured third place in Commodore Not essay (2016)

The topic was- HR Management in Indian Navy- Balancing personal professional aspiration in the information age.

Welfare. As a step towards women empowerment actively played an instrumental role by educating the ladies who join officers and sailors from diverse cultures, education and social background. Imparted Information and knowledge on an overview of Naval life, various pay entitlements, welfare loans by Navy, investment & mutual fund etc by giving presentations to the Naval wives welfare Association.

Fundraising For an NGO (After retirement). Raised Rs 1,00,2000.00 via KETTO platform for Shanti Sajal Research and Charitable Trust for building a hospital for not to privileged women and girls.

Professional Experience

-Research Fellow and Project Officer on strategic studies in UAS (Year 2021-2023) at Manohar Parrikar Institute for Defence Studies and Analyses (Leading Security Think Tank in India)

-Chief Engineering Officer (CEO) at Premier Aviation Base (year 2020-2021). Responsible for maintenance of 1st and 2nd line aircraft servicing, snag rectification, periodical maintenance safety meetings, and Logistics and supply chain management.

- Played vital role as Chief Provisioning Officer, headed logistics department and executed supply chain of 3500+ types of aircraft spares worth INR 1200+ Mn fulfilling requirements for the entire IAF.
- Masterminded induction of 3 new western origin fleet & built warehouses for equipment management, enhanced high priority spares demand by 80% and promoted serviceability of fighter aircraft fleet.
- Piloted INR 80+ Mn worth supply chain during lockdown, raised Covid hospitals & isolation centres for supporting 5K+ military & civilian employees and intensified logistic support during pandemic.
- Formalized armament contracts valued at INR 40+ Bn within a short span of 5 years inclusive of accelerated procurements worth INR 20+ Bn.
- Augmented annual production targets for ordnance factories by 10% and increased indigenous vendor base by 20 % in close liaison with Armament Research & Development Establishment (ARDE).
- Under AatmaNirbhar Bharat initiative, procured INR 300+ Mn worth weapon fixtures from indigenous vendors.
- Commanded gamut of logistics & supply chain deliverables for 5 different locations over a cumulative period of 16 years and inspired cross-functional teams of 600+ personnel.
- Directed appropriate stocking for 15+ aircraft with vital inventory of 8+ Mn spares, including receipt, warehousing, inventory, transportation and labour management.

- Conceptualized stocking & transportation plan for sensitive Eastern Region, reduced costs by ~10%, helmed 98% road worthiness and saved INR 2 Mn by transforming transportation model.
- Oversaw technical and administrative INR 100 Mn worth infrastructure development project to amplify operational effectiveness in the Northern Region at a crucial frontline Air Base.

Col Vineet Jaiswal is an experienced Indian Army officer who has served the nation for 23 years. Col Jaiswal has a strong background in infantry and has spent more than half of his career posted in challenging roles serving the Indian borders and also as part of the UN peacekeeping force in South Sudan. He commanded a fighting unit in counter-insurgency role in the North East of India across three different states.

Apart from his field experience, Col Jaiswal has had exposure in staff appointments as well as instructional tenures. In his last appointment he was posted in Delhi, where he was responsible for automation and network-centric operations in the Indian Army. Col Jaiswal has contributed towards three different automation projects of the defence forces, including a greenfield venture, where he is responsible for planning and executing the project in the network-centric domain.

After dedicating close to two and a half decades of his life to the army, Col Jaiswal is now looking forward to transitioning into the corporate world. He is actively honing his soft skills and pursuing an executive MBA program from SP Jain Institute of Management and Research, Mumbai. Col Jaiswal brings with him 23 years of experience in leadership, team building, operations, project planning, execution, and management. He is a tech-savvy professional with first-hand exposure in planning and executing pan-India automation projects and digital transformation.

Col Jaiswal is keen to work with industry leaders in the operations and supply chain roles in technology, project implementation and consultation fields and believes that he can contribute immensely with his experience. He is open to learning new skills and is looking forward to a fulfilling second career. Overall, Col Jaiswal is a highly experienced and skilled individual with a strong track record of leadership and project management.

20 Years of experience in Men Management, Logistics supply chain management, Administration of more than 1000 personnel at a time. Communication specialist with skills of negotiations.

- A Proactive individual who excels in fast-paced, rapidly changing environments, team builder and lateral thinker with strong work ethics and commitment to organizational vision.

Skills: Maritime Operations, LSSGB holder, Certified in Global Supply Chain and Logistics Management

I have extensive professional experience in various fields, including strategic leadership, program management, people management, training and development (HR), security, crisis management, operations management, intelligence analysis, general administration and supply chain management. I have successfully led and managed teams and projects in challenging and complex environments, delivering high-quality results and outcomes. I have also developed and implemented training and development programs for staff and stakeholders, enhancing their skills and competencies. I have a strong background in security and crisis management, ensuring the safety and well-being of personnel and assets. I have also applied my analytical and problem-solving skills to provide accurate and timely intelligence reports and assessments. I am proficient in general administration and supply chain management, ensuring the efficient and effective use of resources and compliance with policies and procedures.

Head of Engineering Department, Naval Air fighter squadron, Goa

- As the Head of Air technical organization, I implemented quality-driven maintenance strategies that resulted in a 20% increase in asset availability and reduction in downtime of aircraft.
- Established and enforced SOPs to ensure operational safety for both personnel and materials, leading to over 1500 accident-free hours of flying operations.
- Led the implementation of a comprehensive Training and Development program for 250+ personnel. Established continuous education practices to ensure that the team is equipped with latest skills and knowledge, improving overall job performance and productivity.
- Effectively analysed usage trends and collaborating with supply chain agencies, successfully maintained an in-house inventory of over 1500+ items while reducing turn-around time by approximately 8%.

Manager Production, Naval Aircraft Maintenance and Support facility, Goa

- Commissioned first Naval fighter aircraft maintenance support facility and managed the project from initiation to completion overseeing all aspects of project planning and execution. Boosted asset availability while improving operational efficiency by 40%.
- Collaborated with Russian delegates, established a strong liaison and effectively managed multiple warranty disputes, resulting in savings of \$22 million dollars.
- Employed critical thinking and data analytics to analyze multiple aircraft failures, effectively pinpointing the underlying causes resulting in increased asset availability and extended operational range beyond 250 NM.
- Spearheaded the maiden life extension program for fighter aircraft engines, resulted in cost

savings of upto \$2 million dollars. This involved developing new SOP's for maintenance, testing and analysis of engines resulted in optimal performance and asset availability.

OPERATIONS MANAGER

- Led cross-functional teams of sizes 200+ during my assignments in the armed forces involving strategic planning, man material management therein ensuring error free and incessant conduct of flying operations in temporary remote locations and have excelled in achieving the goals of the organisation safe and accurately with focus on strong work ethics and cohesive team building in time bound extremes
- Performed scrum team management functions such as annual performance reviews, 1 to 1 mentoring, fortnightly training days and grievance/conflict management for all 150 plus team member, Conducted performance reviews of various operations, implemented numerous process improvement methods to ensure completion and achievement of maintenance activities within the stipulated timelines
- Executed and co-ordinated maintenance and repair with Repair Depots, Equipment Depots, overhaul agencies and OEMs. Performed component life monitoring for 1000+ components.
- Carried out quarterly and half-yearly maintenance safety audits for entire station including hangars, labs and stores, Employed analytical and quality control skills to identify areas of improvement by undertaking process improvement initiatives for drafting SOPs, procedures and guidelines resulting in process optimization
- Trained employees on optimal processes and use of equipment to boosting department productivity.
- Seasoned in developing strategies to strengthen Supply Chain effectiveness and Inventory management of valuable assets in most challenging military operations.
- Experience in the application of error minimising tools like Just Culture, Maintenance and Operations checklist.
- Lead Helicopter Maintenance and Operations of Operations Meghdoot in the highest battlefield of Siachen Glaciers from 2013-15.
- Adept in training and development of teams, with specialization in manpower planning and deployment, while strengthening man-hours efficiency and executing accident/incident free flying
- Performed periodic quality audits of all maintenance related activities of the squadron and deciphered the bottleneck processes and anomalies from the reports prepared and implemented the rectification process
- Handled various projects across India by employing office productivity tools and visualization tools to increase productivity and for better transparency
- Elevated customer satisfaction ratings by providing speedy resolutions.
- Directed day-to-day operations by spearheading implementation of short-term and long-term strategies to achieve business plan and profitability goals.
- Streamlined operations to consistently deliver on targets.
- Developed and shared best practices across company to align with objectives and quality standards.
- Trained and mentored high-performing team through regular performance reviews, individual feedback and professional coaching.

TECHNICAL MANAGER

- Incorporated complete digital transformation of documentation of aircraft, missile systems, Nav aids in one of the biggest bases of IAF in collaboration with M's Wipro. Trained 2000+ personnel in Electronic Maintenance Management System.
- Headed Maintenance Control Centre with a team of 50+ personnel responding to Immediate, Short Term Maintenance Requirements, Medium Term Maintenance needs and Long Term

checks

- Communicated effectively with all key stakeholders, including project teams, internal clients and external parties.
- Supervised implementation project designed to improve system productivity.
- Handled Maintenance Program ensuring full fillment of all maintenance requirements to ensure the fleet remains fully operations
- Performed Out of Phase Maintenance including Trouble Shooting & Defect Rectification
- Ensured effective optimization for maintenance decisions for schedule changes to resolve conflicts between maintenance and daily operations schedule.
- Ensured Availability of aircraft to meet the schedule and coordinated with base repair depot while carrying out all necessary activities to expedite the return of the aircraft to service(AOG)
- Provided Outstation Coordination and Support to visiting aircrafts while addressing technical problems posed in operations
- Trained and supervised technical volunteers about projects projects to pass on skills needed to perform assigned tasks.
- Reviewed information from projects and suggested improvements.
- Coordinated tasks with business and technology units to meet delivery schedules and milestones.

HR MANAGER

- Employed leadership and team management skills to effectively manage a multi ethnical and cross functional team of over 200 personnel
- Responsible for assessment of personnel on their performance, welfare management, rewards and appreciation
- Supervised employee grievances redressal, leave management, discipline, counselling, and conflict resolution
- Identified and solved complex strategy problems impacting management and business direction.
- Compiled and updated employee files in electronic and paper formats to maintain accurate records.
- Organised employee appraisal reviews to discuss performance with managers and assess compensation.

LOGISTIC AND SUPPLY CHAIN

- Improved Inventory Management of 10,000+ items using ABC and VED Analysis and reorganised obsolete inventory by 40%. Hence, reducing indenting by 60% and cost to the organisation by 25%.
- Ensured availability of 90 per V-E and HADR items for 100+ stakeholders of Eastern Naval Command by Forecasting, indenting and Supply within three review cycles.
- As part of 140 bedded Hospital Management, was responsible for end-to-end continuous supply-chain of non medical requirements i.r.o victualling, clothing and store items for patients and entire hospital in liaison with numerous stakeholders.
- Defined and Executed Logistics and Supply Chain Operations by executing 400 plus contracts(Procurement, Maintenance, Outsourcing Services, Repair,etc)in close coordination with various stakeholders.
- Piloted 100 per implementation of Government E Market Place in AOR.

STRATEGIC MANAGEMENT

- As Officer I/C of NKG School, conceptualised, designed and implemented techniques for delivering of seamless online education to 240 nos students during COVID-19 pandemic.
- Crafted comprehensive strategies to achieve up-to-date payments of 1000+ yard employees

w.r.t 7th CPC MACP, PPOs, NPS Debits etc. within a time span of eight months during Covid pandemic and therefore enhancing their morale.

- Credited with enhancing transparency, accountability by increment in TDS on Income Tax by 220% in a single FY through process management and Excel based analytics tool.
- Headed cross-functional team of 50 personnel for establishment of COVID compliant infrastructure in Hospital by provisioning contact-less systems, setting up of oxygen enabled 100 bedded COVID ward, COVID ICU-NICU. The hospital was credited to be 1st Military Hospital to be opened to civilian personnel.

FINANCIAL MANAGEMENT

- Planned and coordinated Civil Works worth 150Cr towards Reconstruction post Cyclone Hudhud and ensured readiness for International Fleet Review-2016 at Visakhapatnam.
- Headed Payroll and Taxation processes for 1400+ Defence Civilian Employees posted at an Industrial Unit with responsibility of Budgeting and Crediting pay-bills worth INR 96Cr+ annually.
- As HOD(Logistics) Meticulously planned and reviewed annual budget allocation of INR 10Cr (public fund) and INR 50 Lakhs (non-public fund).
- Piloted Preparation of Balance Sheets for more than 8 accounts and audited various command level NPF.

TRAINING AND MENTORSHIP

- Formulated curriculum and imparted structured classroom training to 120+ officers of Karnataka and Goa Naval Area on CCS Rules.
- Imparted LOGISTIC AND BUDGET related Training to 50 + Medical Officers and MNS.

Senior Program Manager

- Responsible for ensuring aircraft spares availability for maintenance and repair at all the operational units. Operated and concluded contracts for a total of USD 400 million plus for procurement of aircraft spares and LRUs from OEM by effective negotiation.
- Concluded contract with OEM for repair and major overhauling of 08 indigenized helicopters.
- Coordinated through full project cycle for infrastructure project (value – USD 30 million) involving preparation of DPR, invitation of bids, price and contract negotiation, execution, monitoring of works and stakeholder management.
- Collaborated with OEM Vendors and Suppliers for on-time delivery of serviced products and spares resulting in increased serviceability and availability of aircraft at field units.

Senior Manager Operations and Logistics

- As Head of Department (Technical), led multiple teams (cross functional and cross cultural) of 135 plus resource personnel with proven acumen in team building, manpower planning, training and development, performance appraisal, work scheduling and grievance/incident handling towards achieving organizational goals.
- Controlled and reviewed the forecasting of vital SKUs required for optimal operation of the department by implementing inventory management techniques such as ABC/FSN/VED analysis.
- Improved shopfloor performance metrics by implementing Lean and Agile practices and standardized work flow process by driving change, saving upwards of 3000-man hours annually.
- Steered Supply Chain Operations and resource management during operational exercises and ensured 85 % fleet serviceability at all times
- Controlled Inventory worth INR 250 crores and developed Long-term roadmap for Supply

Chain Planning, Logistics Inventory Management and Stock aging management.

Information Technology

- Led the project for Conceptualization and development of structure for migration and integration of LMS from an unsecure open-ended network to secure AFNET with end-to-end monitoring utilizing scrum framework.

Production Engineer, Varun Beverages Ltd (2012-2013)

- Responsible for production planning & scheduling as per warehouse capacity, sales forecasting & material availability.
- Long-term focus on sustainability initiatives ensuring business viability in the long run. (e.g., Reduction in waste and water consumption)
- Led TQM implementation
- Implemented safety standards and best hygiene practices in accordance with local requirements and FSSC 22000: ISO/TS 22002-1.

Operations & Security

- Instrumental in gathering & collating operational information for India-Pakistan peace talks on Siachen Glacier in 2005.
- Planned & coordinated in setting up a new post from scratch in Siachen Glacier. - Conducted Audit of operational works in high altitude area & optimised duplications in defence works resulting in saving of Rs 25 Lakhs to the formation.
- Planned & relocated three counter insurgency posts in J&K, resulting in zero Infiltration of terrorists in area of responsibility.
- Formulated plans for Disaster management & oversaw relief operations during floods in Ladakh in 2010, thereby saving many lives.
- Analyzed Intelligence at tri-services HQ level/ National level & Coordinated conduct of Intelligence based operations in J&K resulting in elimination of 18 terrorists between 2015-18. Awarded Chief of Integrated Defence Staff Commendation Card in 2019 for the same.
- Improvised a resource mobilization plan, aiding the organization in meeting the stringent operational time lines. Reduced operational time by 2 hours.

Logistics & Supply Chain Management

- Planned & executed advance winter stocking of all posts of Northern Siachen Glacier in a timely manner resulting in enhanced operational preparedness.
- Audited supply chain & Logistics operations involving a move of 1500 tons of supplies on 600 vehicles on daily basis for stocking in High altitude area, culminating in optimization of 25 vehicles and resultant savings to exchequer.
- Through vision and strategy in training, enhanced productivity of team & reduced cost of maintenance of assets of varied inventory of approximately \$ 250 Million using local resources and innovations.
- Systematically reduced costs in Supply Chain operations of Logistics Area in field formations by implementing a need based just in time model.

HR & Administration

- key role in Streamlining procedures leading to increased satisfaction levels in manpower planning pertaining to postings, appraisals, Honours & Awards and complaints of over 30,000

personnel.

- Built strong inter personal relationships & accomplished a positive work environment.
- Formulated & implemented a training and development program for 860 personnel inducting in high altitude area in Ladakh in 2009 resulting in increased efficiency of troops.
- Key role in building strong relations with local population and civil administration in Kargil during 2009- 11, thereby ensuring no untoward incidents.
- Demonstrated experience in conduct of border personnel meetings with Pakistan on sensitive issues affecting National security along Western borders.

Since Jan 2010 till date as Commissioned Officer (Technical) with Indian Navy in various cross domain profiles.

Quality Assurance

- Leading the Quality assurance team of Navy as Regional Head Since Jan'23–till date. Responsible for quality testing and decision on Quality Approval/final clearance for equipment/material from PSUs and private firms in North India. Communication and coordination with GMs/CMDs of PSUs like BEL(Gzb) and private defence equipment manufacturers & Shipyards viz. MDL, GRSE, CSL, HSL, L&T, GSL.
- Formulation and revision of Quality Acceptance Procedures for various systems being developed by Indian firms as part of indigenization efforts. Undertaken Capacity Assessment of new firms for production of items as per defence standards.

Leadership| Management| Administration| Supply Chain| Risk & Crises Management

- Served onboard Indian warships INS Suvarna and INS Ranvijay as HOD-Electrical Systems Dept. Responsible for effective working of the Communication systems, Radars, Navigation Systems, Combat Systems and other Electrical/Electronics systems of the warship.
- Leadership by example and motivating highly trained naval sailors/soldiers in times of crises and highly demanding operational marine environment by showing Perseverance and Strong mental strength. Undertaken Management of resources, men and machinery and multitasking to meet the operational requirements. Ensured operational availability of systems for missions, defect identification & rectification at sea, upkeep and routine maintenance. Management of IT and communication operations of the ship.
- Steering Refit/AMP Projects of ship by effective planning and execution of new installation, replacement, repairs and maintenance activities of systems through coordination with Naval Repair Agencies, Material Organisation, Naval Headquarters and private firms.

Project management

- Leading the electrical team as Deputy Director in Design Bureau, Navy Headquarters from 2016-21. Responsible for designing of electrical systems and power distribution of submarine design projects of Navy and DRDO.
- Executing technical project planning and ensuring that the projects are completed with high quality of deliverables. Reporting on project progress through effective presentations, project documentation and recommending process improvements. Handling planning and cross-team collaborations. Steering project activities and Managing change control with varying levels of complexity and mitigating potential risks.

Procurement & Contracts| Facility Management

- Managing dockyard operations as Manager in Manager- Naval Dockyard Visakhapatnam with key focus on adherence to Service Level Agreements (SLAs).

Cross domain exposure on Procurement, Contract Management, Manpower/Workforce Management, Budget management.

Telecom /BSS Engineer, Alcatel Lucent Ltd., Ahemdabad

- Worked briefly for 02 months in 2009 in Telecom sector. Involved in the initial setup of 3G infrastructure for BSNL, Rajkot and Ahmedabad.
- Successfully set up several Transreceiver Towers & Switching station in Gujarat

HUMAN RESOURCE MANAGEMENT

As an Officer In-Charge of Logistic Support Company successfully handled approximately 400 Army Personnel of various Trade and Category for 6 years and developed excellent interpersonal skills and well bounded cohesive team.

ADMINISTRATIVE OFFICER IN EDUCATIONAL INSTITUTE

Administrative Officer of Army Public School, Shankar Vihar, Delhi Cantt- 2 years tenure .

Administrative Officer of 17 Andhra NCC Battalion Vijayawada (AP) -Successfully trained 3200 NCC Cadets and groomed Associated NCC Officer(ANO) and Regular Staff for 2 years tenure.

TECHNICAL & OPERATIONAL ROLE IN COMMUNICATION

1. As an officer In-charge for Army Day Parade and Republic Day Parade strategic Radio communication and Marching troops movement controller.
2. Strategic and Technical secure Triplicated (line,satellite and radio)communication and Public Address system for PM Sri H Devagowda at URI HYDRO ELECTRIC POWER HOUSE Inauguration , Baramulla District (J&K).

LOGISTICS AND SUPPLY CHAIN MANAGEMENT

As an Army Canteen Officer managed Transportation , Distribution , Security and Indenting of wide range FMCG Goods worth 5 Crore for serving and retired Military Personnel at Ranchi & Vijayawada.

OPERATIONS MANAGER

- 1.Managed all logistical functions including maintenance, fuel, and food for a 150-employee organization; achieved 97% operational readiness rating for a 50-vehicle fleet including Light armoured vehicles resulting in successful move of the convoy from Srinagar valley comprising of 1000 tps , wpns and equipment worth \$10MM.
2. Organized and led biweekly meetings for the battalion's twelve key leaders / Junior Commissioned Officers and clerks disseminating critical information and ensuring the Battalion achieved the highest state of maintenance and administrative readiness of the six companies.
3. Analyzed cost of current equipment and property disbursements to identify improvement areas and developed plan to turn-in \$350k worth of excess equipment, resulted in an annual maintenance and man-hour cost savings of \$110K.

SECURITY

- 1.Led a cross-functional team of military and civilian specialists (Intelligence, Policy and

Legal), including supporting Government departments to design operational strategy and improve security situation during abolition of Article 370 and 37A as tehsil Commander.

2. Planned and supervised the safe and effective execution of Field Firing of Heavy Support weapons at Field Firing Ranges in Rajasthan and Faizabad.
3. Hand selected to deploy as the Aide De Camp (out of 15 candidates), following superior performance where i provided actionable recommendations on a diverse range of topics including military operations, logistical functions, and Training.

Capable in employing risk analysis, resource planning, crisis management across operations, techno-logistics, HRM and facility management.

Hands on experience in HR activities including recruitment, performance management, grievance handling and welfare activities.

Expertise in team building and management, people development, counselling, conflict resolution and problem solving

I have given data to Ms Shalari kindly take from her

Operations and Project Management

- o Supervised multiple deployments of missile firing unit while looking after administrative requirements and setting up camps for 200+ personnel at remote locations.
- o Managed smooth supply chain of spares and critical items of Guided weapon system of both vintage and modern make.
- o Improved process efficiency upto 40% by standardizing end to end operation management workflow for war plans with reduced timelines and limited resources, by smooth execution of activities, seamless co-ordination between sections and effective resource utilization.
- o Managed funds of over 3 Cr annually for infrastructure development. Planned various projects worth 130 Cr for induction of a new system and explosives at the unit adhering to CFEES safety standards.
- o Managed, maintained and documented a transport force of over 250 vehicles ranging from earth movers to two wheelers, system specialist vehicles, crash fire tenders and recovery vehicles of varying vintage. Catered vehicle requirements for operations within and outside base in war like situations.

Human Resource and Finance Management

- o As Adjutant of a prominent IAF base managed HR functions of 2000+ personnel for 10 years including movement of personnel, performance appraisal, promotions, grievance handling, discipline, fund management in various code heads and administration.
- o Carried out hiring of casual labors for the Station through tendering process, advertising, opening and evaluating bids as per Defense Procurement Manual.
- o Handled entire spectrum of operational logistic, equipment management, clothing and ration supplies for maintaining a field force of 100 plus personnel deployed in an arduous remote terrain with extreme climatic conditions.
- o As an administrative officer of the base, managed various ventures with a total financial holding of 2.5 Cr through book keeping, resource allocation, planning for procurement of equipment in a staggered manner whilst keeping fund availability in check.
- o Single handedly spearheaded a team of 15 personnel towards the vaccination of personnel and families within the base (2000+ individuals) with meticulous planning and meeting utmost safety standards as demanded by the pandemic.

Security Management

- o As security head of an IAF base, managed to thwart an intrusion attempt with an alert team,

active liaison with localites and law enforcement authorities.

o Managed perimeter security of a unit with available manpower and using decoys as diversions to intruders. Got modern security equipment installed as deterrants to enemy forces.
